SUMMARY
I am a Front-End developer looking for a full-time position. I have practical experience of HTML, CSS, JavaScript, React and Node. I have experience in using the Agile/Scrum methodology while working in a team. I have good communication skills, stress-resistant, looking for constant development and am ready to work.

PROJECT EXPERIENCE

WebStudio, Github [HTML, SASS, JS]
The website of the company that develops websites and applications. This is an individual project. Build project on github. Made a site layout with a responsive layout.

IceCream, Github [HTML, SASS, JS, Parcel]
Ice cream and shake website made from natural ingredients. Website with a responsive layout. This is a team project. I made a responsive layout of the ice-cream gallery section.

Filmoteka, Github [HTML, SASS, JS, REST API, AJAX, Parcel]
Application for choosing a movie with the ability to create your own libraries of watched movies and movies to watch. This is a team project. I rendered the modal window and requested/responded to the backend information on the selected movie.
